Experience

2016 **Eyal Weisz Music & Technology** - presenting my developed technologies (for: music, games, educational, special needs, life saving, social map, pets and more), multidisciplinary technological art installations including: music, sound, interactive musical instruments, lights, math, videos, mathematical animation, code, and more and took the participants into a guided magical journey. Lectured about frequencies and the connections between sounds, colors, planets and us. Lead hackathon teams. Performing with my music. Demoed a new world leading musical app. Gave short lessons in various fields. Managed a stage and jams and served as a Midburn Ranger (Navad).

2016 **Wearable Electronics & Electronic Music Workshops Leader**, Big Idea Summer Camp - workshops developments, consolors mentoring, workshops teaching, kids counselor (around the clock) for self empowerment, teamwork, creativity, values, creating meaningful and fun experiences. In addition, I lead the camp's trip and contributed producing, music playing and participating in various camp events and shows.

2012-2015 **Researcher, Developer, Lecturer and Award Winner** - researched and developed a life saving communication system and a social map. The project has been developed for Rafael and is being used by them. In addition did a series of demonstrations and lectures about the project for Rafael's engineers, Kinneret college, conferences and startup companies. **Won the excellence projects contest of the Israel Chamber Information Systems Analysts of 2015.**

2012-2013 **C Teaching Assistant**, Kinneret College & private lessons- taught my students how to design, solve and debug challenges using functions, conditions, loops, arrays, structs, pointers and recursion.

2011-2013 **Excellent Perach Counselor** - worked with two kids in order to empower and promote them in both school and social wise in order to fulfill themselves and their potential. The work has been personally fitted to the kids' needs and personality and included: talks, games, sports, music, hikes & bicycle rides, lessons and more. The work included getting involved with their social, educational and families environment to build a whole customized supporting and empowerment solution for them.

2013 **Big Brother** - empowerment and educational work with a kid to help him to get ready for the new day, prepare him to deal with school, family, activities and life to become the best he can be and more.

2011-2012 **Counselor and Mentor in a special education school**, Sahaf - part of Perach work has been done in a special education school. Doing so, got me present during classes and work with both kids and the educational staff to create a better studying environment.

2010-2013 - **Founder, Eyal's Studio** - a guitar studio for learning, creating and empowering via music. In addition, gave voluntarily lessons, taught in a boarding school, formed and lead my college band, arranged music and played lead guitar for various events and Kibutztes in the Jordan valley.

2009-2013 **Activist**, Kinneret College - represented my classmates in front of the college staff due to scholarships issues, work for raising the studying level, took part to gain the college and the dorms' contractor acknowledgement and act on negligence in the dorms' construction, interviewed for channel 2 on students economics, formed and lead the college's band, lead collaborations with the sound engineering department, consulted and helped the students association, hosted in open days and more.

2010 **General Worker**, Degania Bet Pool - made sure that everything is awesome and people having the time of their lives while keeping it safe and clean.

2010 **Private Math Teacher** - preparing a student a test in order to move to a better school. During the time we worked together, the student advanced from not being able to multiply to solving equations systems, playing with physics and more.

2009-2010 **Counselor and Mentor**, Bik'at Kinnerot Boarding School - worked with pupils after school hours, helped them with their homework and to get above the school level, gave riddles and challenges. Gave personal talks, took part in games and activities and mentored the counselor who worked with them around the clock.

2009 **Supporter**, Incredimail - worked close to the developers, reconstructed errors and issues and gave solutions to the users, usually via email.

2012-2015 **Learning Skills, Brain Activity Frequencies and Music Researcher**, Ilit - research, programing, math and music compositions.

2008 **Counselor**, New Jersey Y Camps - worked with kids around the clock and made sure they did their chores and had the time of their lives. Lead and participated in activities. Taught about discipline, teamwork, friendships and values. Valued campers and talked with their parents. Played music, lead and managed trips and activities logistics and replaced the senior counselor and the division head from time to time.

2004-2008 **Counselor**, youth club - volunteered in a youth club, helped kids to make their homework, gave talks, played games and ran activities.

2004-2008 **Embedded Command & Control Technicians' Shift Manager**, IAF – in addition of being a technical shift manager, I re-wrote the division's technical studying and training program, taught and helped the soldiers advance in their job, took care of their needs and lectured to users, officers and guests.

2007 **Birthright** - joined to a Birthright trip expedition with students from the USA. Toured the country, gave talks, answered question about living in Israel, took part in activities and played piano and guitar during activities and ceremonies.

2003-2004 **Class Representative**, Ort Hermelin College.

2003-2004 **Guitar player**, Beit Kaplan Seniors House - played in weekends and holidays, helped the staff, talked with the seniors and their families.

2001-2002 **Young Physics Counselor**, Ort - taught physics in fun ways using experiments and activities to empower pupils' will to learn physics in high school.
